

David S. Weiss, DO

SPECIALTIES and TREATMENTS

Pain Management

- Non-Opioid, Non-Surgical Acute & Chronic Pain Treatments
- Non-Surgical Neck, Back, and Spine Pain Management
- Non-Invasive Joint Pain Management (including neck, back, spine, shoulder, hand, wrist, hip, knee, and foot)

Neck, Back, and Spine Care

- Joint injections with steroids, nerve root block (blockade), fluoroscopically-guided spine injections, ultrasound-guided injections, radiofrequency ablation, spinal cord stimulator trial & implantation, neuromodulation, epidural injection, trigger point injection

Shoulder Care

- Joint injections with steroids, nerve root block (blockade), and radiofrequency ablation

Hip Care

- Joint injections with steroids, fascia iliaca blocks, and greater trochanteric bursa injection

Knee Care

- Joint injections with steroids or viscosupplementation, genicular nerve blockade, peripheral nerve stimulation (PNS), and radiofrequency ablation

Foot Care

- Non-invasive treatments and injections for plantar fasciitis, peripheral nerve blocks, and neuromodulation, neuropathy treatments

Additional Specialities and Treatments

- Headaches including cervicogenic headaches, migraines and occipital neuralgia
- Complex regional pain syndrome (CRPS) care, including sympathetic plexus blockade
- Baker's cyst

Offices Served: Hershey, Harrisburg, and Camp Hill

Doctor's Assistant | Keonie Fertenbaugh ext. 1225

Dr. David Weiss is a fellowship-trained, interventional pain physician specializing in non-surgical musculoskeletal care for patients who are unsuitable for surgery or have not found sufficient relief from surgical interventions.

Collaborating closely with the surgeons at OIP, Dr. Weiss provides comprehensive musculoskeletal care, utilizing innovative solutions such as neuromodulation and advanced modalities to alleviate chronic pain. He is adept at treating conditions like neuropathy, joint pain (including shoulder, hip, and knee), neck and back pain, and conducting spinal cord stimulator trials. His practice encompasses interventional pain services for both diagnostic and therapeutic purposes.

Board Certified:

American Board of Anesthesiology (ABA)

Fellowship:

Penn State Health Milton S. Hershey Medical Center | Hershey, PA | Anesthesia/Pain Medicine Fellowship

Residency:

UW Medicine - Anesthesiology & Pain Medicine | Seattle, WA | Residency, Anesthesiology

Medical School:

Touro University California - College of Osteopathic Medicine | Vallejo, CA | Doctor of Osteopathic Medicine

Professional Memberships:

American Society of Anesthesiologists (ASA)
American Academy of Pain Medicine (AAPM)
